You had it to do, John K.  
Another British officer has sent in "regrets" from South Africa.  
When the French journalists run short of copy they reopen the Dreyfus case.

It seems that Billy and Grover are determined to have "harmony" if they have to fight to get it.  
Supt. McChesney has called a convention of Institute workers to meet at Lexington, June 25 to 27.

Recent issues of the Lexington Leader leads us to believe that that journal had been lead to a leading specialist and undergone an operation.

It now seems that the Democratic party, up before the grand jury over in Missouri, will be transferred from the state house to "pleasant quarters" in the penitentiary.

The State Board of Equalization has passed Ohio county without any raise. Evidently they took into consideration the fact that we haven't a foot of decent public highway in our borders.

The Colorado, the first of the class of big armored cruisers authorized by the fifty-sixth Congress, was launched at Philadelphia Saturday. It is the largest war craft afloat that flies the American flag.

Take place for the meeting of the Kentucky Educational Association has been changed from Mayville to Lexington, and the date to 23 to 25 of June. Ohio county should send up a large delegation.

The tom-tom beaters in the Democratic party, who have been asserting that President Roosevelt is in sympathy with the trusts, will now have their hands full explaining away his vigorous prosecution of the Northern Securities case.

WHENEVER you hear anyone say that Hartford will never have this, or it will never have that, you should mark him down in your little book as a sure enough mossback, and give him an invitation to "Go way back and sit down." You can always count on somebody standing in the way of every public enterprise.

A CERTAIN man died in Texas not long ago, says the Galveston News, leaving fourteen years of subscription due a local paper. The editor of the paper attended the funeral, and just before the lid of the coffin was screwed down for the last time, he placed a linen duster, a thermometer and a palm leaf fan on the remains of the unlamented dead. Although editors are not accustomed to accumulate riches, they always seem to be kind and considerate.

BECKHAM has proven himself to be not an unskillful disciple of the unscrupulous political manipulator under whom he was schooled. He has been the chief beneficiary of the political machine conceived and put in operation by Goebel, and with the aid of the retinue of partisans clustered about him, he has been able to work the machine with an ease and smoothness unknown to its former chief. The manner in which Beckenridge and Hendrick have been "dropped" out of the gubernatorial race, clearly demonstrates the power of the Beckham machine to crush out all opposition in the Democratic ranks. One by one its opponents have been brought to the block. All are surely doomed and we only have to wait to see who shall be next. But Beckham may not have such smooth sailing when he goes before the public this fall to explain the unprecedented extravagance of his administration.

HERE are some rules which we publish for the benefit of the "summer

girls" who may have some scruples against making a phenological assay of the surrounding dome of a stupid beau with a broomhandle. Not all of them have been tried on us, but we are not afraid to guarantee a cure provided they are used judiciously.

Step on his feet.  
Move your hands a little every time he opens his mouth. It will make him nervous. Under the thumb. Bitch the things he likes and especially the people he resembles. Let him see you with men who are his superiors, while he sits bored and unnoticed in the background.  
Do not move if he attempts to embrace you.  
If he offers a caress turn the head a little to one side.  
Never laugh when he laughs, or should you both happen to laugh at the same time, let him closely understand that you are not laughing at the same thing he is laughing at.  
When he begins to tell you a story always interrupt him and begin another that has no relation to the one he is trying to tell you.  
Find fault with all his plans for your pleasure.  
Ask him for things he cannot possibly give you.  
When you start to take a trip call a girl friend to accompany you.  
If you try any of these rules and they fail to work, hand an account of your "adventure" into this office on a pole.

Heart Trouble Baffled Doctors.

Dr. Miles' Heart Cure and Nerve Cured Me.

There is nothing more necessary to health than sleep and rest. If these are denied you, if you rise in the morning more tired than when you went to bed, there is an affection of the nervous system present. If your heart is weak, or there is an inherited tendency in that direction, your weakened nerves will soon to affect your heart's action as to bring on serious, chronic trouble. Dr. Miles' Nerve and Heart Cure at a drug store in Lawrenceburg, after spending \$2000 in medicines and doctors in Louisville, Shelbyville, Frankfort, Cincinnati and Lawrenceburg, and in three days have derived more benefit from the use of your remedies than I got from all the doctors and their medicines. I think everybody ought to know of the marvelous power contained in your remedies.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. ### BEN ROGERS CAPTURED.

Al Chinn's Slayer Landed Behind the Bars Yesterday.

Yesterday morning Ben Rogers, who killed Al Chinn at McHenry, was captured three miles south of Caneyville by H. C. Stinson, a negro, at whose house he had been staying. He left Stinson's home a few days ago saying he was going to Bowling Green. In the meantime Stinson came in possession of the descriptive circular with his picture, sent out by Sheriff Keown, and on going out to feed yesterday morning he found him in the hay loft and placed him under arrest. He then took him to Caneyville, and with the aid of Asa Harner, brought him here. If reports of the murder be true Ben Rogers will most certainly expiate his crime on the scaffold. A reward of \$200 will be paid to his captors.
